Monthly Team Work Tracker — September 2026

Check-in creates a starter row automatically. Complete columns C:G; use rows 125–204 for additional tasks on the same day.

Date	Team Member Name	Task / Work Done	Chat / Discussion / Communication Details	Status	Time Spent	Remark	Attendance Link ID
01-Sep-2026	Sameer	Performed a comprehensive review of all modules and screens, including filters, dependency searches. Verified that the displayed data is accurate and that filters, dependency searches, and other related functionalities are working as expected across all screens.		Completed			1
1-Sep-26	Tarun	Rebuilt Substitute Management (multi-date absences, live-timetable scoping, working actions, candidates modal fix); timetable requirement readiness report, pipeline gate and slot-requirement grid; Python-engine save 405 fix and solver refinements; one-click class-teacher lock; ResourceRatioService extraction; teacher-report list and problem export.		Completed		10 commits — consolidated from prime_ai git history	2
01-Sep-2026	Shailesh	SchoolSetup room-modal building selection, Transport view markup fixes, and Syllabus dependent filters.		Done		3 commits — consolidated from prime_ai git history	3
01-Sep-2026	Gaurav						4
02-Sep-2026	Sameer	Performed detailed testing of the Timetable module, including timetable configuration, data validation, filters, search functionality, scheduling, and overall screen behavior. Verified that the timetable data is displayed correctly and that all related functionalities are working as expected.		Completed			5
2-Sep-26	Tarun	Connected the Constraint Engine to the timetable generator with teacher, time-window and room-capacity rules and a seeded example of every constraint type; converted Manual Placement to Vue 3 (drag fixes, drop hints, teacher locks); generation improvements (early-period window, live timer, Python engine restarts, real coverage stats); teacher-first substitute grid; Reports & Logs dashboard; HRStaff test cases.		Completed		16 commits — consolidated from prime_ai (15) and prime_testing (1) git history	6
02-Sep-2026	Shailesh	Syllabus topic filters, hierarchy design/defaults, and broad seeder reliability and timetable configuration work.		Done		9 commits — consolidated from prime_ai git history	7
02-Sep-2026	Gaurav	Enhanced voucher functionality and reports		Completed			8
03-Sep-2026	Sameer	Performed detailed testing of the Timetable module, including timetable configuration, data validation, filters, search functionality, scheduling, and overall screen behavior. Verified that the timetable data is displayed correctly and that all related functionalities are working as expected.		Completed			9
3-Sep-26	Tarun	Built a Vue editing workspace for the SmartTimetable preview screen; rebalanced demo teacher staffing to 55 and scoped teacher reports to active staff, with balanced-staffing generators.		Completed		3 commits — consolidated from prime_ai (2) and prime_info (1) git history	10
03-Sep-2026	Shailesh	Hostel demo/migration fixes, teacher-profile grouping, and lesson-planning tab filter isolation.		Done		4 commits — consolidated from prime_ai git history	11
03-Sep-2026	Gaurav	Fixed report export issues Accounting reports and breadcrumbs implementation		Completed			12
04-Sep-2026	Sameer	Performed a comprehensive review of all modules and screens, including filters, dependency searches, search functionality, data validation, and overall screen behavior. Verified that the displayed data is accurate and that filters, dependency searches, and other related functionalities are working as expected across all screens.		Completed			13
4-Sep-26	Tarun	Demo-data seeders for Hostel, StudentPortal, HrStaff, Notification, Inventory, Payment, StudentProfile and CommonChat, all registered on the seeder panel; per-tab pagination on TimetableFoundation, HR Masters and Constraint Engine; Timetable Generation reworked into two tabs with the Python engine; StudentPortal Leave audit notes.		Completed		14 commits — consolidated from prime_ai (13) and prime_info (1) git history	14
04-Sep-2026	Shailesh	Library, Transport, LMS Exam, Marksheet, Template, HR attendance, and Syllabus reporting/filter improvements.		Done		11 commits — consolidated from prime_ai git history	15
04-Sep-2026	Gaurav	Implemented pending reports and fixed related issues		Completed			16

05-Sep-2026	Sameer	Performed detailed testing of the Timetable module, including timetable configuration, data validation, filters, search functionality, scheduling, and overall screen behavior. Verified that the timetable data is displayed correctly and that all related functionalities are working as expected.	Completed		17
5-Sep-26	Tarun	Built the ParentPortal Events feature and closed two IDOR security gaps; moved quiz/quest attempt pages to Vue with an offline write queue and fixed grading bugs; fixed lost gateway payments (collected_by) and Razorpay key names; placeholder forms for five upcoming student services.	Completed	8 commits — consolidated from prime_ai (7) and pgdatabase (1) git history	18
05-Sep-2026	Shailesh	Built and rolled out reusable export infrastructure across School Setup, Syllabus, Homework, Quiz, Quest, and Question Bank.	Done	11 commits — consolidated from prime_ai git history	19
05-Sep-2026	Gaurav				20
					21
6-Sep-26	Tarun		Completed		22
06-Sep-2026	Shailesh	Expanded export coverage across Exam, Transport, HR, Library, Vendor, Template, HPC, Marksheet, PTM, and employee/teacher modules.	Done	23 commits — consolidated from prime_ai git history	23
					24
					25
7-Sep-26	Tarun	Timetable publishing: publish incomplete timetables after confirmation, edit published timetables, class-section timetable over a date range; new Periodic View tab; student/parent portal timetables per class-section with filters; day_type_id FK replaces five working-day flags; FET parity plan and engine audit.	Completed	20 commits — consolidated from prime_ai (19) and prime_info (1) git history	26
					27
07-Sep-2026	Gaurav	Implemented export/import modals for Inventory, Hostel, FrontOffice, and Recommendation modules	Completed		28
08-Sep-2026	Sameer	Performed detailed testing of the Timetable module, including timetable configuration, data validation, filters, search functionality, scheduling, and overall screen behavior. Verified that the timetable data is displayed correctly and that all related functionalities are working as expected.	Completed		29
8-Sep-26	Tarun	Renamed tt_timetable_class_jnt to tt_timetable_assignment (Timetable DDL v8.0); timetable colours and legend on the periodic view and portals; substitute candidates ranked by capability tier with a rebuilt picker; shared-activity generation fix; seeders for FrontOffice, behavioural assessments, stock issues and HR compliance; health-check worklist.	Completed	15 commits — consolidated from prime_ai (13), pgdatabase (1) and prime_info (1) git history	30
08-Sep-2026	Shailesh	Implemented Excel import flows across infrastructure, transport, library, employees, syllabus/question bank, dashboard, and vendors.	Done	10 commits — consolidated from prime_ai git history	31
08-Sep-2026	Gaurav	Cafeteria, Hostel, and Inventory export modals Syllabus Books, Admission, and FrontOffice export modals	Completed		32
09-Sep-2026	Sameer	Performed detailed testing of the Timetable module, including timetable configuration, data validation, filters, search functionality, scheduling, and overall screen behavior. Verified that the timetable data is displayed correctly and that all related functionalities are working as expected.	Completed		33
9-Sep-26	Tarun	Health-check fix pass across StudentFee, Payment, SystemConfig and SchoolSetup; Notification create forms moved into tab dialogs; Timetable Configuration made edit-only; timetable preview last-period fix; Dusk suites updated; 179-row health-check worklist and first 15 screen reports.	Completed	16 commits — consolidated from prime_ai (9), prime_testing (4) and prime_info (3) git history	34
09-Sep-2026	Shailesh	Question Bank toolbar cleanup by disabling unused print/export blocks.	Done	1 commit — consolidated from prime_ai git history	35
09-Sep-2026	Gaurav				36
10-Sep-2026	Sameer	Performed detailed testing of the Timetable module, including timetable configuration, data validation, filters, search functionality, scheduling, and overall screen behavior. Verified that the timetable data is displayed correctly and that all related functionalities are working as expected.	Completed		37
10-Sep-26	Tarun	Export component rolled out across HR Masters, Payroll Reports, Leave, Activity Log, Complaints, Feedback and all timetable screens (Masters, Constraint Engine, Resource Availability, Substitute, Reports & Logs, Archive), with create pages turned into dialogs; Dusk suites repointed at the dialogs; health-check screen reports 12-22.	Completed	43 commits — consolidated from prime_ai (22), prime_info (16) and prime_testing (5) git history	38
					39

10-Sep-2026	Gaurav	Export/import functionality implementations Accounting module enhancements	Completed		40
					41
11-Sep-26	Tarun	Built the Teacher Portal module and enabled staff logins, with notifications page, PTM day grid and write actions; separated timetable publishing from attaching.	Completed	4 commits — consolidated from prime_ai git history	42
11-Sep-2026	Shailesh	Added syllabus setting display names, completion-control hierarchy, locking, release gating, policy, and migration support.	Done	2 commits — consolidated from prime_ai git history	43
11-Sep-2026	Gaurav	Accounting enhancement work	Completed		44
12-Sep-2026	Sameer	Testing status: Class Setup and Syllabus Management have been completed. In the LMS module, Question Bank testing is currently in progress, while Homework, Quest, and Quiz are pending. The database was also reset and the complete database seeder was executed successfully to verify that all required data was seeded correctly.	Completed		45
12-Sep-26	Tarun	Syllabus Periods Allocation month grid, day detail page and Generate/Sync; menu-category dashboards for Finance, LMS and Exam & Assessment; sys_users aligned with DDL v4.1 and user creation fixed; Teacher Portal class-teacher timetable tabs; daily progress report.	Completed	7 commits — consolidated from prime_ai (6) and daily-work-progress (1) git history	46
12-Sep-2026	Shailesh	Strengthened syllabus completion control, hierarchy export, homework filters/schedules, topic levels, and breadcrumb/schema support.	Done	9 commits — consolidated from prime_ai git history	47
12-Sep-2026	Gaurav	Accounting enhancements Inventory, Recommendation, and Student dashboards	Completed		48
					49
					50
13-Sep-2026	Shailesh	Expanded Homework, Quest, Quiz, Syllabus, Question Bank, and dashboard filters, schedules, releases, allocations, and mappings.	Done	20 commits — consolidated from prime_ai git history	51
					52
14-Sep-2026	Sameer	Performed functional testing of the modules discussed in the meeting. Teacher Portal and Class Setup testing have been completed, while Syllabus testing is currently in progress. Previously reported bugs were also retested to verify their fixes.	Completed		53
14-Sep-26	Tarun	Student mobile app overhaul (library parity, paged lists, side menu, calendar, keyboard handling, auth gate, notifications, parent-only fee payments, SDK 54); mobile backend APIs (logins, notifications, secured Razorpay payments and webhooks); admin app SDK 54 alignment; all-classes timetable preview and exports; portal fixes.	Completed	27 commits — consolidated from prime_ai (13), primeapp (11), primeadmin (2) and prime_info (1) git history	54
14-Sep-2026	Shailesh	Major LMS Exam/Quiz reporting filters, syllabus topic/competency workflows, transport rosters, HR 2FA, PTM fixes, and validation updates.	Done	22 commits — consolidated from prime_ai git history	55
14-Sep-2026	Gaurav	Implemented filters on Complaint and Recommendation modules Fixed accounting routes	Completed		56
15-Sep-2026	Sameer	Completed detailed testing of all modules marked as “Detailed Testing = Must” and reviewed the modules marked as “Review Only = Yes.” Also performed retesting after bug fixes to verify that the bugs previously reported to team members have been resolved successfully.	Completed		57
15-Sep-26	Tarun	Mobile admin app: working Transport module, users, timetable, fees and teacher portal APIs and new screens; student app library actions at web parity; restored the Organization CRUD screen with breadcrumbs; Manual Placement formatter regression fixed; Android apps status notes.	Completed	8 commits — consolidated from prime_ai (4), prime_info (2), primeadmin (1) and primeapp (1) git history	58
15-Sep-2026	Shailesh	Library master/transaction UI and seeders, employee creation/validation, syllabus release-control hierarchy, filters, exports, and allocation fixes.	Done	23 commits — consolidated from prime_ai git history	59
15-Sep-2026	Gaurav	Implemented review changes Accounting enhancement work and changes	Completed		60
16-Sep-2026	Sameer	Completed detailed testing of all modules marked as “Detailed Testing = Must.” Only the Mobile Application testing is pending. Retested the bugs previously reported to team members after they were fixed and verified their resolutions. Also reset the database and ran the complete database seeder to verify that all required data was seeded correctly.	Completed		61
16-Sep-26	Tarun	Rebuilt the Accounting schema from DDL v4.8; mobile Trip Stops screen matched to the web stop-status tab; Teacher Portal chat with role permissions; fixes to Hostel exports, visitor seeder, portal complaint views and seeders.	Completed	10 commits — consolidated from prime_ai (8), pgdatabase (1) and primeadmin (1) git history	62

16-Sep-2026	Shailesh	Exam upload and question selection, transport trip times, syllabus release control, marksheet setup, LMS safeguards, PTM/vendor/certificate UI, and routing fixes.	Done	22 commits — consolidated from prime_ai git history	63
16-Sep-2026	Gaurav	Accounting enhancement work Added CSS customization in adminlte-custom.css (lines 2491–2502) Accounting enhancement work after migration Fixed voucher edit error	Completed		64
17-Sep-2026	Sameer	Reviewed all modules in the main branch after merging, and the review has been completed. Detailed testing of the recently enhanced module is currently in progress. Updated all required seeders for the demo, and reset the database followed by running the complete database seeder to verify that all required data was seeded correctly.	Completed		65
17-Sep-26	Tarun	Timetable is_active kept in step with PUBLISHED status; Student Fee search by name plus class/section; HR Holidays month calendar; school-wide chat locked on and Teacher Portal chat restored after a merge; Student/Parent Portal UI polish and hostel demo data.	Completed	8 commits — consolidated from prime_ai git history	66
17-Sep-2026	Shailesh	Subject-group validation and cascading filters, syllabus topic dependencies, three-column master forms, modal conversions, exam checking, and homework submissions.	Done	10 commits — consolidated from prime_ai git history	67
17-Sep-2026	Gaurav	Fixed Accounting Asset & Integration bug Accounting enhancement work Added Syllabus Books filter	Completed		68
18-Sep-2026	Sameer	Reviewed all modules in the main branch after merging LMS and Timetable, and the review has been completed. Completed detailed testing of the recently enhanced module. The final review of all modules after the developer's review is currently in progress. Reviewing all videos and recreating them wherever issues are identified is also in progress. Updated all required seeders for the demo and reset the database followed by running the complete database seeder to verify that all required data was seeded correctly.	Completed		69
18-Sep-26	Tarun	Behavioural Assessment pre-demo audit and fixes (score reads, scale assumptions, dead code, ratings filters, remarks modal, grade bands, reports and audit trail); reversible 85-teacher staffing switch; per-machine Python interpreter detection; teacher capability extraction.	Completed	9 commits — consolidated from prime_ai (8) and prime_info (1) git history	70
18-Sep-2026	Shailesh	Real-time question validation, OSM/OSRM pickup-point mapping, exam/syllabus hardening, race-condition guards, and Class IX/XI seeders.	Done	7 commits — consolidated from prime_ai git history	71
18-Sep-2026	Gaurav	Accounting enhancement work	Completed		72
19-Sep-2026	Sameer	Completed detailed testing of all School Setup modules, including Class Setup, Syllabus, School Book, and Complaints. Reviewing all videos and recreating them wherever issues are identified is currently in progress. Also reset the database and ran the complete database seeder to verify that all required data was seeded correctly.	Completed		73
19-Sep-26	Tarun	Rebuilt the template designer on Vue 3 (multi-select, align, group); template v6 variable resolution with model binding and marksheet printing; local dev tenant provisioning on migrate:fresh --seed; dropped cross-database accounting FKs.	Completed	10 commits — consolidated from prime_ai git history	74
19-Sep-2026	Shailesh	Overhauled LMS Quests and built Quest, Homework, and Question Bank report suites with cascading filters and robust empty states.	Done	7 commits — consolidated from prime_ai git history	75
19-Sep-2026	Gaurav	Accounting enhancement work Fixed Complaint module issues Fixed Student Profile issues	Completed		76
					77
					78
20-Sep-2026	Shailesh	Built syllabus extra-period and sequencing flow, rule matching, scheduling, authorization, seeders, exports, and filter fixes.	Done	9 commits — consolidated from prime_ai git history	79
					80

21-Sep-2026	Sameer	Completed detailed end-to-end testing of the complete School LMS flow, including Student Portal and Parent Portal integration. Video review and recreation are currently in progress, with all videos being checked for issues and recreated wherever required. Also reset the database and executed the complete database seeder to verify that all required data was seeded correctly.	Completed		81
21-Sep-26	Tarun	Template builder: element library, QR/barcode/date widgets, default templates, card printing and 29 per-type presets; Front Office visitor and gate pass printing; rating scale levels on create with a redesigned form; student photos stored once; syllabus migration FK fix; printable-template guide.	Completed	9 commits — consolidated from prime_ai (8) and prime_info (1) git history	82
21-Sep-2026	Shailesh	Refactored Exam pagination/filter isolation, class-aware paper sets, scope/blueprint/upload/report flows, plus Quiz grouping and allocation dependencies.	Done	17 commits — consolidated from prime_ai git history	83
21-Sep-2026	Gaurav	Complaint filter inconsistency fix Divided Inventory UOM into UOM and UOM Conversion tabs Inventory filter inconsistency fix Checked Recommendation pagination and filter-related points Student Profile filter and pagination inconsistency fixes Student Detail DOB and Admission Date validation fix Inventory filter fixes Student Profile image upload fix Guardian media upload changes	Completed		84
22-Sep-2026	Sameer	Completed the required seeder updates, including the Teacher Seeder, Class, Subject, Subject + Study Format, Class Group, Subject Group, Subject Group + Subject seeders, and TenantUserSeeder. Also reset the database and ran the complete database seeder to verify that all required data was seeded correctly.	Completed		85
22-Sep-2026	Tarun	Added an improvement-suggestions card to the timetable dashboard for published timetables; moved Entity Groups CRUD onto the Department page as two tabs; converted the BehaviouralAssessment create pages and the Template Type, Variable, Purpose and Assignment create pages into dialogs; and added the 22 accounting reporting views from DDL v4.8. Also merged main and teammate PR #173.			86
22-Sep-2026	Shailesh	Fixed migration issue; Question Bank pagination and breadcrumb issues; Extra Allocation filter issue; Syllabus pagination and filter issues; Transport tab-wise pagination issue.	Done	7 commits — 9e88c1bbb, c325ad391, 55f3b2d9e, dfdb8e6d7, febf8294d, b31d5ab4e, 6c5f8b852	87
22-Sep-2026	Gaurav	Cafeteria -> Check pagination and filter-related points Hostel -> Check pagination and filter-related points Accounting -> Check pagination and filter-related points , feat(admission): enhance setup module views, cycle context switcher, and dynamic age rules	Completed		88
23-Sep-2026	Sameer	Tested the "Behavioural Assessment" module, but it needs to be upgraded as per the new requirements, so the task is currently 'In Progress' Also tested the "Template" module and shared the identified bugs with Shailesh. The Template module will be retested after the bugs are fixed.	Completed		89
23-Sep-2026	Tarun	Rebuilt the tenant dashboard and signed-out landing page around publicly shareable school information, replacing student statistics and charts. Removed event publishing in favour of public holidays. Scoped Spatie media to the tenant database and unified tenant storage paths. Added demo-school seeders with a menu lock, plus demo assets and a revert point. Committed Template module DDL v6.	Completed		90

23-Sep-2026	Shailesh	1) syllabus scheduling teacher leave manage planning -> pending 2) Transport -> Check pagination and filter-related points across all modules against the provided sheet -> done 3) Employee & Attendance -> Check pagination and filter-related points across all modules against the provided sheet -> done 4) library -> Check pagination and filter-related points across all modules against the provided sheet -> pending 5) marksheet -> Check pagination and filter-related points across all modules against the provided sheet -> pending 6) PTM -> Check pagination and filter-related points across all modules against the provided sheet -> done 7) template module loading issue fix 8) templete module bug fix 9) vendor module testing		Completed		91
23-Sep-2026	Gaurav	Admission enhancement work -> Updated the application with latest DDL and added validations Admission -> Check pagination and filter-related points Updated Accounting Dashboard -> enhanced design and added more information with view tables		Completed		92
24-Sep-2026	Sameer	Review the demo video.->Done Modification Demo Video		Completed		93
24-Sep-2026	Tarun	Rebuilt the Behavioural Assessment module on the new v3 schema (phases 1–4), replacing the old screens with a cleaner, phase-by-phase build. Delivered phase 5: insight reports, data exports, a points system and portal views. Reviewed and merged pull request #178 (Gaurav's enhancement branch) into main, keeping the codebase ready for the next round of testing.		Completed		94
24-Sep-2026	Shailesh	Refactor results method to optimize queries and remove unused variables , Marksheet issue fix , Refactor scheduling tabs to maintain active state across requests,Add aptitude test PDF to LMS seed assets,Route return redirect in this tab		Completed	repo: prime_ai; commits da024d98a , f9ec951cb , 7f5c3eead , b078ca402 , f07c3fd5d	95
24-Sep-2026	Gaurav	Front Office -> Check pagination and filter-related points Front Office menu update and tab list updated from two list per page to different pages Admission enhancement work Admission Reports implementation and dashboard enhancement with more information		Completed		96
25-Sep-2026	Sameer	Review the demo video. Retest the Template module.		Completed		97
25-Sep-2026	Tarun	Built a new shared paper-evaluation framework in TenantCore (storage, core rules, HTTP layer) and a Vue 3 evaluator with annotations, flags, comments, timer and shortcuts. Moved online, offline question-wise and bulk-total exam checking onto it. Added annotation burning into student PDFs, question display above answers, missing-media handling, full-screen mode and correct-answer highlighting. Polished Behavioural Assessment and merged PR #179.		Completed		98
25-Sep-2026	Shailesh	Library module refactor — tab management, search forms and filters, pagination, transaction/history/audit views; overdue-report service; trashed-record ordering; and student-attendance scan flow.	Self (no external)	Completed	4h 46m 9 commits, all refactor/cleanup	99
25-Sep-2026	Gaurav	Added new CRUD to UI (adm_admission_status_masters, adm_merit_score_config, adm_follow_ups, adm_test_slots, adm_test_slot_items, adm_entrance_test_candidates, adm_behavior_during_test, adm_merit_list_entries, adm_application_documents, adm_application_document_versions) Updated CRUDs with v2.1 columns		Completed		100
26-Sep-2026	Sameer	Testing modificaion module (Quiz,Quist,Homework) and meeting with Brijesh Sir approx 1 Hr		Completed		101

26-Sep-2026	Tarun	Today I made 10 commits in the prime workspace (6 my own, plus 4 of Gaurav's merged via PR #180). I moved Homework and Quest paper-checking onto the shared Vue evaluator, so the student's original file is never overwritten and marks are totalled on the server. I added a free-period-per-half teacher rule to the timetable engine, scoped the timetable dashboard to the selected timetable, and updated filters.					102
26-Sep-2026	Shailesh	Admission entrance-test question management; added the for_admission flag in Question Bank; improved difficulty-distribution checks; built entrance-exam attempt and result pages; and updated breadcrumb/tab structure.	Self	Completed	9h 13m	8 commits + 1 merge from main	103
26-Sep-2026	Gaurav						104
27-Sep-2026	Sameer	According to a new data update		Completed			105
	Tarun						106
27-Sep-2026	Shailesh	Test Papers and question-creation pages; assessment-tab restructure; candidate management; auto-scheduling end-date logic; entrance-test type 'Both'; Test Slot refactor; action dropdown; and paper-check management.	Self	Completed	11h 01m	12 commits, mostly Admission	107
	Gaurav						108
28-Sep-2026	Sameer	All Seeders Updated According to the Provided Data → Done		Completed			109
28-Sep-2026	Tarun						110
28-Sep-2026	Shailesh	Prime testing component cerate and consistan degsin , Lesson Re-Alignment menu create		Completed	14h 00m	67cbfda84 da1f52ab5 65207184c	111
28-Sep-2026	Gaurav	Admission updated application Code with latest DDL v2.2 Accounting demo video		Completed			112
29-Sep-2026	Sameer	All Seeders Updated According to the Provided Data		Completed			113
29-Sep-2026	Tarun						114
29-Sep-2026	Shailesh	"class group and subject group subject filter add , Refactor SubjectGroupSubjectController and SchoolClassController: update ordering to descending by ID Refactor SubjectGroupSubjectController and related views to enhance option handling ,Refactor modals for class and exam group creation/editing + migration updates Enhance migration files: description field length, soft deletes, data types Implement locking mechanism for syllabus schedules and update UI Refactor user name retrieval in disruption history to use null-safe operator"		Completed	11h 00m	12 Commits	115
29-Sep-2026	Gaurav	Accounting Bug fix -> Credit/Debit Note Voucher Admission mgmt. -> field conditions and validation check and gaps fix Aligned students profile with admission promotions		Completed			116
30-Sep-2026	Sameer	All Seeders Updated According to the Provided Data and tested Modification module (Quist,Quiz)		Completed			117
30-Sep-2026	Tarun						118

30-Sep-2026	Shailesh	Enhance Subject Group Modal: Add Class and Section selection fields, improve layout Refactor syllabus topic model and service to remove duration_minutes field, use estimated_periods. Updated Model, Service, Import, Request, Seeders, Views, Migration feat: Implement Class Stream Management - New sch_class_streams table, Model, Controller, Request, Views, JS, Routes, Permissions subject study format add short name - Controller refactor, remove options table feat: Enhance Subject Group Management with Stream Support and Auto-Code Generation school setup changes - ClassStream, RoomType models + migrations Merge branch main into shailesh_main_v3 Refactor Subject Study Format Management to Vue 3 - New Vue components, subject-study-format.js (897 lines), AJAX routes feat: Enhance Room and RoomType Management - Added is_system field, pagination fix, error handling feat: Update room type and room selection logic for subject study format management	Completed	9 Commit 496d92cb9 33a73d581 dbab1a9b4 3d5217641 5a4bc9397 32147f20c c5ade1b44 119336ab7 34f50c2e3 8aefac8c8 4cfdb2e64	119
30-Sep-2026	Gaurav				120
01-Sep-2026	Tarun	Rebuilt Substitute Management with multi-date absences, live-timetable scoping and working actions; fixed the substitute-candidates modal that never opened	Completed	repo: prime_ai; commits 1d58685, 5568a3e	
01-Sep-2026	Tarun	Built the timetable requirement readiness report, pipeline gate and slot-requirement grid; reworked the timetable-management dashboard class-subjects panel	Completed	repo: prime_ai; commits 2abc597, c72cc3b	
01-Sep-2026	Tarun	Fixed the 405 error when saving a Python-engine timetable and refined the solver and generation job	Completed	repo: prime_ai; commits 4486cb4, 6b3a790	
01-Sep-2026	Tarun	Added one-click class-teacher lock on the Activities tab; extracted resource ratio maths into ResourceRatioService; added the teacher-report list and problem export in Reports and Logs; adjusted TeacherSeeder	Completed	repo: prime_ai; commits 66b734d, e193c72, e27c7b7, 1dbf66d	
02-Sep-2026	Tarun	Connected the Constraint Engine to the timetable generator (phase 1) and added teacher, time-window and room-capacity rules (phase 2); seeded a worked example of every constraint type; reported constraints stranded on another term; added teacher period-limit configs and repaired two unavailability seeders	Completed	repo: prime_ai; commits ff2ca20, 0fb2e32, 3074ae6, 496bee0, ffe8ec2	
02-Sep-2026	Tarun	Converted Manual Placement to Vue 3 with drag fixes, drop hints, teacher locks and a priority-ordered sidebar	Completed	repo: prime_ai; commits 91395ae, 6543f99, d08137e	
02-Sep-2026	Tarun	Improved timetable generation: configurable early-period window, live timer, wider generate modal, Python engine restarts until the time budget is spent, and real coverage stats persisted	Completed	repo: prime_ai; commits 1f61346, 5afd862, f8e1b16, 4e398c2	
02-Sep-2026	Tarun	Added the teacher-first substitute assignment grid with a substitute duty record; added a Reports and Logs dashboard tab with real weekly grids; dashboard Load vs Capacity now shows every teacher	Completed	repo: prime_ai; commits 4059ead, cca6763, 0f9fcf3	
02-Sep-2026	Tarun	Added HRStaff test cases	Completed	repo: prime_testing; commit 7b00b4dd	
03-Sep-2026	Tarun	Built a Vue editing workspace for the SmartTimetable preview screen	Completed	repo: prime_ai; commit a7177d2	
03-Sep-2026	Tarun	Rebalanced demo teacher staffing to 55 and scoped teacher reports to active staff; added balanced-staffing generators and source data	Completed	repo: prime_ai; commit d0247c6; repo: prime_info; commit 75899e2	
04-Sep-2026	Tarun	Added demo-data seeders so every screen has data: Hostel (8 seeders plus occupancy report fix), StudentPortal (all screens, syllabus tabs, Monday-Saturday attendance), HrStaff (6), Notification (7), Inventory, Payment, StudentProfile and CommonChat; registered all on the seeder panel	Completed	repo: prime_ai; commits 297e78e, 500dac2, 5edb834, b695660, f26acd7, e181ba9, 9cb2d4f, 46d8a92	
04-Sep-2026	Tarun	Added per-tab pagination and form cleanup on TimetableFoundation and HR Masters; paginated the Constraint Engine and restored breadcrumbs and top menu on timetable preview pages	Completed	repo: prime_ai; commits 7962cd5, e003f8f, 660ba39	
04-Sep-2026	Tarun	Reworked Timetable Generation into two tabs with the Python engine and editable status; split shared-subject demand between teachers in the teacher ratio	Completed	repo: prime_ai; commits dd6e59c, d6ebe89	
04-Sep-2026	Tarun	Documented the StudentPortal Leave audit and demo-seeder findings	Completed	repo: prime_info; commit 422ed0d	

05-Sep-2026 Tarun	Built the ParentPortal Events feature, closed two IDOR security gaps and reduced per-request queries; added ppt_events to the ParentPortal DDL	Completed	repo: prime_ai; commit 6a8a75b; repo: pgdatabase; commit 9b9689f
05-Sep-2026 Tarun	Moved quiz and quest attempt pages to Vue with an offline write queue; fixed descriptive answers, timeout grading and submitted quests showing as In Progress	Completed	repo: prime_ai; commits ab221be, b1ca159, 4c22e38
05-Sep-2026 Tarun	Fixed gateway payments being lost to a missing collected_by in StudentFee and corrected Razorpay credential key names	Completed	repo: prime_ai; commits a7c8a22, 3d64364
05-Sep-2026 Tarun	Added placeholder request forms for five upcoming student services	Completed	repo: prime_ai; commit 91efe4c
07-Sep-2026 Tarun	Timetable publishing: allowed publishing an incomplete timetable after confirmation, editing a published timetable with an unpublish warning, and a class-section following its own timetable over a date range	Completed	repo: prime_ai; commits 542fe2f, 112845b, 1724512, d609859
07-Sep-2026 Tarun	Added the Periodic View tab (days down, periods across, plan-based filters); fixed the Class Section dashboard tile; counted class-teacher-first coverage per day	Completed	repo: prime_ai; commits 50108ba, 2b785cb, 1fda1ab, c296a31
07-Sep-2026 Tarun	Student and parent portal timetables resolved per class-section with teacher and subject filters and the new grid layout	Completed	repo: prime_ai; commits 0daef88, 79687ec, 9d49a88
07-Sep-2026 Tarun	Schema and platform cleanup: replaced five class working-day flags with a day_type_id FK, dropped four null-only TimetableCell relations, guarded against an old Python interpreter, regenerated the breadcrumb registry, refreshed the seeder registry, added the app-launcher backdrop	Completed	repo: prime_ai; commits 8f7ba61, 3634451, 63fbc25, d5f8781, c29313a, 12d3843, 69c09e6, 095556e
07-Sep-2026 Tarun	Documented the FET parity plan and the timetable engine audit	Completed	repo: prime_info; commit 6e35537
08-Sep-2026 Tarun	Renamed tt_timetable_class_jnt to tt_timetable_assignment per Timetable DDL v8.0 and followed the rename through the code	Completed	repo: prime_ai; commits 5377481, 88dc260; repo: pgdatabase; commit aa24571
08-Sep-2026 Tarun	Portal Week tab resolved per date; timetable colours and legend on the periodic view and student/parent timetables	Completed	repo: prime_ai; commits 00f9baa, ed9878e, ea7cdeb
08-Sep-2026 Tarun	Ranked substitute candidates by capability tier and rebuilt the picker; SweetAlert confirmations for absence actions; fixed shared-activity generation creating a phantom class	Completed	repo: prime_ai; commits 0443b0e, 1a3e4c3, 10d72d0
08-Sep-2026 Tarun	Added seeders for FrontOffice (form options aligned to DB ENUMs), behavioural assessments (plus remarks blade fix), stock issues (plus input casting fix), HR leave, compliance registers and Form 16; wired them to the seeder panel	Completed	repo: prime_ai; commits 0c72880, 4376444, 4427a50, 95c436c, 6579072
08-Sep-2026 Tarun	Prepared the health-check screen inventory and finalization worklist	Completed	repo: prime_info; commit c9383ad
09-Sep-2026 Tarun	Health-check fix pass across StudentFee (seven pages), Payment gateway screens (plus demo seeder), SystemConfig media store and school config, SchoolSetup user-role-permission, and shared permissions, breadcrumbs and row actions	Completed	repo: prime_ai; commits dbda674, f4946835, 6753188, f9a3d96, ca21f4d
09-Sep-2026 Tarun	Moved Notification create forms into tab dialogs; made Timetable Configuration edit-only with an Academic Terms create dialog; fixed the timetable preview blanking the last teaching period	Completed	repo: prime_ai; commits a71d525, ca6b1c9, 2e75365
09-Sep-2026 Tarun	Updated Dusk test suites for StudentFee scholarships, Notification and Timetable Configuration; reorganised the doc analysis folders	Completed	repo: prime_testing; commits 18604145, 3e6f169e, 98a2061c, 2ca08a75
09-Sep-2026 Tarun	Wrote the 179-row health-check worklist, the first fifteen screen reports and the import/export component guides	Completed	repo: prime_info; commits 8e7a3cd, ae646f9, 7315f7c
10-Sep-2026 Tarun	Added the export component across HR Masters (9 tabs), Payroll Reports (4), Leave Management (3), Activity Log (per-tab query and paginator), Complaint Management, Feedback and CommonChat	Completed	repo: prime_ai; commits 2111f1f, 32a4a50, 8dc4850, 7759476, d2c9914, 0a1221b, 96c0170, 0fb4cbb
10-Sep-2026 Tarun	Added export and create dialogs across timetable screens: Timetable Masters (7 tabs), Constraint Engine (5), Resource Availability (4, with filters), Substitute Management (3), Reports and Logs, Requirement, Archive and TimetableFoundation; restored the Room Ratio Regenerate button	Completed	repo: prime_ai; commits fc291a5, 4fd8b5a, 0108a26, f2aefbd, 10b7949, 664a1ce, 58c08e2, cf060c6, 1fe27eb, 31d51b0, f0faa23
10-Sep-2026 Tarun	Retired the System Config delete branch and made its search bar filter; made the status-switch DOM id unique per table	Completed	repo: prime_ai; commits ddf86e7, d718d1d
10-Sep-2026 Tarun	Repointed Timetable Foundation and Constraint Engine create tests at the new dialogs and mirrored the Preparation and ReportsLogs suites	Completed	repo: prime_testing; commits ccccdc97, fe713a6d, 56aa5bb4, f2ee8c2d, 0ab1c9b7; repo: prime_ai; commit 28ec5bd
10-Sep-2026 Tarun	Wrote health-check screen reports 12-22 (HR, payroll, complaints, constraint engine, resource availability, substitute, archive, reports and logs, system config)	Completed	repo: prime_info; commits 4eec4f4, a5f0ef4, 28e6bc6, b606584, 0c1332b, fe206f6, 7ffb63e, cd51830, dd360a7

11-Sep-2026	Tarun	Built the Teacher Portal module and enabled staff account logins; added notifications page, PTM day grid and three write actions	Completed	repo: prime_ai; commits df2cfea, 9b5205d, ac7e833
11-Sep-2026	Tarun	Separated timetable publishing (sets status) from attaching	Completed	repo: prime_ai; commit 1855311
12-Sep-2026	Tarun	Built Syllabus Periods Allocation month grid, day detail page, and Generate and Sync shared across both panes	Completed	repo: prime_ai; commits ac2e5bb, 8f89fbb
12-Sep-2026	Tarun	Built menu-category dashboards for Finance, LMS and Exam and Assessment	Completed	repo: prime_ai; commit 5c3c6b2
12-Sep-2026	Tarun	Aligned sys_users with tenant DDL v4.1; restricted the user type dropdown, added remarks and fixed user creation; added Teacher Portal class-teacher timetable tabs	Completed	repo: prime_ai; commits 1363271, 7adbc82, aa49189
12-Sep-2026	Tarun	Recorded the daily work progress for the dashboard rebuild programme	Completed	repo: daily-work-progress; commit d918d46
14-Sep-2026	Tarun	Student mobile app: library matching the web portal, paged lists, side menu, coloured calendar, keyboard handling, auth gate, notifications, separate student and parent menus, parent-only fee payments, SDK 54 dependency alignment	Completed	repo: primeapp; commits 0acd8ac, 0bc6236, 49c3b9a, 5820db6, 7ae2498, 922ecaf, d6e91db, f03c4a2, 0753cd6, 9c476fa, f742b9c
14-Sep-2026	Tarun	Mobile backend APIs: fixed mobile logins, token check and notifications API, paged student lists, fixed transport, complaint, study resource and calendar APIs, secured Razorpay fee payments and webhooks, fixed notification mark-read 405 and open redirect	Completed	repo: prime_ai; commits 84629f2, ac04b1d, 4e5f30e, 97d7a7c, f5bdb05, 9667505
14-Sep-2026	Tarun	School admin mobile app: aligned SDK 54 dependencies and removed leftover conflict markers	Completed	repo: primeadmin; commits 599794b, 3431f4f
14-Sep-2026	Tarun	Smart Timetable all-classes preview matching the generate preview, with redesigned exports; allocations filter on is_released and teacher class tabs from the published timetable	Completed	repo: prime_ai; commits 926cc8c, c3773e8
14-Sep-2026	Tarun	Fixed the activity log 500 on array-valued changes, the StudentPortal exam label, the Student role leave permissions, the timetable scope diagnostic and the Teacher Portal attendance width	Completed	repo: prime_ai; commits f239705, ede7ba3, 57aeba9, 2df6e12, d18fd63
15-Sep-2026	Tarun	Mobile admin: working Transport module (sub-menus readable at large font sizes), users, timetable, fees and teacher portal APIs, and new admin screens	Completed	repo: prime_ai; commit 4c34588; repo: primeadmin; commit f5af282
15-Sep-2026	Tarun	Brought student app library actions to web student-portal parity	Completed	repo: primeapp; commit c8b63cf
15-Sep-2026	Tarun	Restored the Organization CRUD screen with breadcrumbs; undid a formatter pass that broke Manual Placement	Completed	repo: prime_ai; commits 2e2a9d5, c9cfe78, a23b10c
15-Sep-2026	Tarun	Documented Android apps status and demo login accounts for tenant roles	Completed	repo: prime_info; commits 8b781e5, ec127c9, c2365d9
16-Sep-2026	Tarun	Rebuilt the Accounting schema from DDL v4.8	Completed	repo: prime_ai; commit bc18910; repo: pgdatabase; commit 32cddaa
16-Sep-2026	Tarun	Mobile Trip Stops screen and stop status flow brought in line with the web stop status tab	Completed	repo: prime_ai; commit 2a90ce1; repo: primeadmin; commit 00b21df
16-Sep-2026	Tarun	Added the Teacher Portal chat surface and granted chat permissions to school roles	Completed	repo: prime_ai; commit 5e5fcf6
16-Sep-2026	Tarun	Fixed Hostel incidents exports, visitor movement seeder minute overflow, portal complaint view text, a missing BaStudentRemark import and RecommendationSeeder	Completed	repo: prime_ai; commits cacb9af, 2d968e0, 389906c, 273e788, 43a6541
17-Sep-2026	Tarun	Kept timetable is_active in step with PUBLISHED status and fixed the published list	Completed	repo: prime_ai; commit 0c71bb2
17-Sep-2026	Tarun	Added Student Fee search by student name plus class and section on every student list; replaced the HR holiday list with a month calendar	Completed	repo: prime_ai; commits 0349c1e, 3b7597b
17-Sep-2026	Tarun	Locked school-wide text chat on and restored ChatService, Teacher Portal chat and chat permissions lost in a merge	Completed	repo: prime_ai; commits 43f80e8, b45ffce
17-Sep-2026	Tarun	Student and Parent Portal UI polish and controller fixes (filter heights, leave withdraw confirmation, full-width leave form) and hostel demo data	Completed	repo: prime_ai; commits 9b30f45, 4d8280f, aaca143
18-Sep-2026	Tarun	Behavioural Assessment pre-demo audit and fixes: score reads, scale assumptions, dead code removed, split class/section ratings filter, student remarks details modal, grade bands, witness search, date range, per-category report modals and audit trail rework	Completed	repo: prime_ai; commits ef898c5, 833b938, cf6f70f, e8ad194, 99ca234, 4c1426e

18-Sep-2026	Tarun	Added a reversible 85-teacher staffing switch to the seeder panel and per-machine Python interpreter detection; extracted teacher capabilities from the source sheet	Completed	repo: prime_ai; commits 31f8c70, d06110; repo: prime_info; commit a3ce6ae
